

Garnet Yuke's Rock:

Garnet Yuke owned and operated the sawmill and lumber company in Palmer Rapids that eventually became Gulick's Mill. For several years Garnet – via Yuke Lumber Co – had the Ministry of Lands & Forests permit for cutting timber in this area (of the hunting grounds) and James P cut for him for several years. Garnet hunted with us – as a matter of fact, at Leo's invitation, he and James went moose hunting up to Sioux Lookout one year.

Garnet got several deer at this watch. It was nice and clear in those days after the new road ("the highway" they called it) was constructed in the early 1960's. The runway crosses the highway, just east of #2 and the watch is nearby.
